1070 E Trinity Ln, Nashville TN, 37216

Skills: **Programs:** 3DS Max, After Effects, Authorware, Director, Dreamweaver, Flash, Illustrator, Premiere, Pro Tools, Sound Forge, Photoshop, Quark Xpress
Languages: ActionScript, CSS, HTML, JavaScript, MySQL, PHP, XML
Platforms: Microsoft Windows, Macintosh OS

Experience: **Applied Health Analytics**, Nashville, TN May 2010 - Present
Senior Developer, Production Manager

- Designed the interface for and developed an application with multi-tiered access and functionality for clients to collect, view and manage data pertaining to the health and wellness of members to create solutions for bettering member health and wellness with integrated systems for ordering various materials and sending mass e-mail blasts.
- Built an application to manage internal operations related to printing and shipping orders, sending e-mail blasts, invoicing clients, importing scanned survey data and monitoring site usage and metrics.
- Wrote scripts to output customized booklets for printing using PHP to generate .PDF files with an alternative method for digital delivery that converts the .PDF book into .SWF format so that it may be delivered via a self-built interactive Flash Flip Book.
- Designed company logo and branding used on all collateral materials.

lostudio, Nashville, TN January 2008 - May 2010
New Media Developer

- Responsible for leading and executing the development of Actionscript driven interactive Flash programs from early design to final production, but also regularly active in graphic design projects and the utilization of a variety of additional programming languages.
- Developed an embeddable streaming video player with off-site event tracking and database integration to control player settings and playlists as part of a viral campaign for NationalGuard.com.
- Utilized HTML, CSS, PHP, MySQL, JavaScript and AJAX to create interactive and informational web-based elements.

Lockheed Martin, Mount Laurel, NJ Summer 2007
Intern

- Designed and programmed interactive courseware for Aegis Combat Navel Training.

Mikaelyn Austin Productions, Philadelphia, PA Winter 2006
Graphic Design/Programming

- Designed and programmed the PalestraDocumentary.com website using Photoshop, Flash, HTML, CSS and ActionScript.

Dan Wenner 2002 - Present
Freelance

- Produced web and desktop based interactive work including functional websites, media application interfaces and locally executed programs.
- Completed digital design projects encompassing the fields of graphic design, digital illustration, logo design, 3-dimensional modeling/rendering and photo manipulation.
- Designed promotional illustrations for RO_JA Motorsports using Illustrator.

- Developed and programmed the interface of a promotional Winamp Modern media player skin for Spoono.com using Photoshop and XML.
